## CERTIFICATE OF FIRST CLASS MAILING

I hereby certify that this correspondence is being deposited with the United States Postal Service as First Class Mail, postage prepaid, "Post Office to Addressee", in an envelope addressed to the Commissioner for Patents Washington, D.C. 20231, on September 4, 2002.

  
Terrill Williams

**SUPPLEMENTAL INFORMATION DISCLOSURE STATEMENT**  
**UNDER 37 CFR § 1.97 (b)**

Commissioner for Patents  
Washington, DC 20231

Sir:

Submitted herewith on Form PTO-1449 is a list of publications known to Applicants and/or their Attorney/Agent in compliance with the requirement of 37 C.F.R § 1.56. A copy of each publicly available document is also being submitted herewith.

Applicants have cited for the Examiner's consideration certain issued U.S. patents and co-pending U.S. patent applications that are owned at least in part by the assignee of this application, that describe subject matter related to the present invention. The co-pending applications are listed herewith in accordance with M.P.E.P. 609 III.D which states: "Applicants may wish to list U. S. patent application numbers on other than form PTO-1449 or PTO/SB/08A and 08B format to avoid the application numbers of pending applications being published on the patent. If a citation is not printed on the patent but has been considered by the examiner in accordance with this section, the patented file will reflect that fact as noted in subsection III.C(2) above."

No copies of the co-pending applications have been provided. If the Examiner wishes to have copies of the co-pending applications, Examiner should contact the Attorney of record.

Our Docket No.	S.N.	Filing Date	Title
KVC-19.03	09/615,166	7/13/00	Reduced Minimum Configuration Fiber Optic Current Sensor
KVC-22.02	09/337,223	6/22/99	Polarization Transformer
KVC-22.04	10/147,148	05/16/02	Polarization Transformer
KVC-33.02	10/034,541	12/21/01	Apparatus and Method for Electronic RIN Reduction in Fiber-Optic Sensors
KVC-33.03	10/124,186	04/17/02	Apparatus and Method for Electronic RIN Reduction in Fiber-Optic Sensors Utilizing Filter with Group Delay
KVC-34.01	09/796,050	02/28/01	Faraday-Effect Current Sensor With Improved Vibration Response
KVC-35.01	09/906,019	07/13/01	Method For Controlling Fiber Optic Sensor Scale Factor
KVC-36.01	09/615,181	07/13/00	DSP Signal Processing For Open Loop Fiber Optic Sensors
KVC-37.01	09/921,383	8/02/01	Decreasing the Effects of Linear Birefringence in a Fiber-Optic Sensor by Use of Berry's Topological Phase
KVC-38.01	09/921,166	08/02/01	Reduction of Linear Birefringence in Circular-Cored Single-Mode Fiber

Applicants have listed dates of publication on the attached PTO-1449 for the cited documents based on information presently available to the undersigned. However, the listed publication dates should not be construed that the information in the cited documents was actually published or otherwise publicly available on the date indicated.

Applicants respectfully request that the Examiner consider the listed documents and indicate that they were considered by making appropriate notations on the attached Form 1449.

This submission does not represent that a search has been made or that no better art exists. Nor does it constitute an admission that each or all of the listed documents are material or

constitute "prior art." Further, if the Examiner applies any of the documents as prior art against any claim in the application and Applicants determine that the cited documents do not constitute "prior art" under United States law, Applicants reserve the right to present to the Office the relevant facts and law regarding the appropriate status of such documents. Moreover, the Applicants further reserve the right to take appropriate action to establish the patentability of the disclosed invention over the listed documents, should one or more of the documents be applied against the claims of the present application.

Although we believe that we have provided for the fee due in connection with this submission, the Commissioner is authorized to credit any overpayment or charge any deficiencies to/from our **Deposit Account No. 06-1448**.

Should there be any questions after reviewing this paper, the Examiner is invited to contact the undersigned at (617) 832-1000.

Date: September 4, 2002

**Customer No: 25181**
